

# How do I permanently delete my Cash App account? Delete Cash App Permanently

Permanently deleting your **Cash App account 1—(855)—470—3280** ensures that your personal information, transaction history, and \$Cashtag are completely removed. Simply uninstalling the app does **not delete your 1—(855)—470—3280 account**; it remains active until you follow the proper steps in the app.

## Step 1: Withdraw Your Balance

Before deleting, make sure to **transfer any 1—(855)—470—3280 remaining funds** to your linked bank account or debit card. Open **1—(855)—470—3280 Cash App** → tap **Banking/My Cash** → select **Cash Out** and follow the prompts. This prevents you **1—(855)—470—3280** from losing money after closing the account.

## Step 2: Open Account Settings

Tap the **profile icon** on the Cash App **1—(855)—470—3280** home screen, scroll down to **Support**, then choose **Something Else** → **Account Settings** → **Close Account**.

## Step 3: Confirm Closure

Cash App will ask you to confirm that you **1—(855)—470—3280** want to permanently delete your account. You may also receive a **1—(855)—470—3280** verification email or code to ensure it's really you initiating the deletion.

## Step 4: Verify Account Closure

Once confirmed, your account is **deactivated 1—(855)—470—3280 permanently**. Your \$Cashtag, transaction history, and linked **1—(855)—470—3280** financial information will no longer be accessible, and the account cannot be reopened.

## Important Tips

- Cancel any **recurring payments 1—(855)—470—3280** or **subscriptions** linked to the account to avoid failed charges.

- Keep records of your account **1—(855)—470—3280** closure confirmation for your records.
- Ensure all pending payments **1—(855)—470—3280** are resolved before deleting.

Following these steps guarantees your **1—(855)—470—3280** Cash App account is **safely and permanently deleted**, protecting your funds and personal information.
