The RequestForOrderConfirmationStatusReport message is used to request the status of either:

- one or several individual order confirmations, or,
- one or several order confirmation messages.

The response to a RequestForOrderConfirmationStatusReport message is the OrderConfirmationStatusReport message.

When the RequestForOrderConfirmationStatusReport message is used to request the status of several individual order confirmations or one or more order confirmation messages, the executing party may receive several OrderConfirmationStatusReport messages from the instructing party.

When the RequestForOrderConfirmationStatusReport is used to request the status of one or more individual order confirmations, each individual order confirmation is identified with its order reference. The message identification of the message in which the individual order confirmation was conveyed may also be quoted in PreviousReference.

When the RequestForOrderConfirmationStatusReport is used to request the status of an order confirmation message, then the message identification of the order confirmation message is identified in PreviousReference.

(For an Entity that is a legal person, the term "Controlling Persons" means the natural person(s) who exercises control over the Entity. "Control" over an Entity is generally exercised by the natural person(s) who ultimately has a controlling ownership interest in the Entity. A "control ownership interest" depends on the ownership structure of the legal person and is usually identified on the basis of a threshold applying a risk-based approach (e.g. any person(s) owning more than a certain percentage of the legal person, such as 25%). Where no natural person(s) exercises control through ownership interests, the Controlling Person(s) of the Entity will be the natural person(s) who exercises control of the Entity through other means. Where no natural person(s) is identified as exercising control of the Entity, the Controlling Person(s) of the Entity will be the natural person(s) who holds the position of senior managing official.).
