

Call for Newsletter Articles

We need articles for future additions of the ISO 20022 Newsletter. Please consider providing a short item of news, or an in depth article related to ISO 20022 for the next or a following edition of the newsletter.

We would like to invite everybody to submit a short story/article/announcement that can fit in the following structure:

- **News items and announcements** – Short, topical, news oriented
- **Major Articles** – In depth discussions of topics of interest: Discussion of schema and their purpose, Implementation experiences, implementation efforts in markets, tips and tricks, technical considerations, educational, regulatory perspectives, etc.
- **RMG and Subgroup updates**

The contribution

Articles should be submitted in Word format and discuss subjects relevant to the ISO 20022 community.

All articles which are selected for publication will be proof read for content, spelling and grammatical errors.

Word count:

- News items – 50 to 200 words.
- Major articles - 500 to 1500 words.
- SEG and subgroups coverage - 350 words or less.

Articles should include section headings.

Illustrations, tables, sidebars are encouraged to illustrate and emphasize the message.

For more information, please read the [ISO 20022 Newsletter Editorial Policy](#).

Note: If an article has been previously published, the Editor requires approval of the Author and the Publisher and requires a Word version of the article without graphics so the article can be issued within the ISO 20022 Newsletter in the same style as other articles.

If you want to see what others have written so far, please go to the [Newsletter page](#).

The deadline

Please send your contributions to iso20022ra@iso20022.org; for major articles, authors are encouraged to submit article proposals (optional) and or articles well in advance of publication: 4 months for a proposal, 2 months for articles.

The license

By submitting a contribution to the newsletter, you agree that the text which appears in the newsletter will be publicly available.

The fine print

We reserve the right not to publish every submitted story in the ISO 20022 Newsletter. We also reserve the right to use a story in a later newsletter instead of the current one. Authors will be informed about these decisions.

Furthermore, we may make minor editorial changes or correct spelling mistakes.

To establish the identity of the authors, your name will be published with your article.

We are looking forward to receiving your submissions.

Don't hesitate to contact the ISO 20022 Communications sub-group (iso20022ra@iso20022.org) should you have questions or need additional information.

Many thanks!

The ISO 20022 Communications sub-group
