

A new version of the ISO 2022 Adoption Initiatives Report is now available

September 23, 2014

The ISO 2022 Adoption Reporting has been taken over by the ISO 2022 Registration Authority and is now made available under various forms.

What's new ?

- ✓ Managed by the Registration Authority (RA)
- ✓ Dedicated page for ISO 2022 Adoption
- ✓ A PDF version of the ISO 2022 Adoption Initiatives Report is now available on www.iso20022.org
- ✓ An updated version of the ISO 2022 Adoption mApp available from the [AppStore](#)
- ✓ Excel documents including the same information are also available upon request to the ISO 2022 RA

ISO 2022 Adoption Initiatives Report

The ISO 2022 adoption initiatives report contains information about projects led by communities of users adopting ISO 2022 as their messaging standard for financial business transactions.

The ISO 2022 Adoption Reporting has been taken over by the ISO 2022 Registration Authority (RA) and is now made available under various forms.

New version of the ISO 2022 adoption initiatives report and Adoption mApp

In August, the ISO 2022 RA contacted the contributors to verify if the published information was still up-to-date and a new version was published in September.

Initiatives details have been updated based on authors input and **8 initiatives** have been added to the collection.

New ISO 2022 adoption initiatives have been added to the collection.

Introduction of additional formats

The **ISO 2022 Adoption mApp for iOS tablets** remains available free of charge from the App Store. The mApp – which has had more than 1,000 downloads - has been rebranded to acknowledge that it is under the responsibility of the ISO 2022 RA.

The exact same reporting is made available on the ISO 2022 website under a combination of **introductory Powerpoint maps** and a **full report in .pdf format**.

Excel documents including the same information can also be requested to the ISO 2022 RA (iso20022ra@iso20022.org).

The ISO 20022 adoption initiatives report

The ISO 20022 adoption initiatives report contains information about projects led by communities of users adopting ISO 20022 as their messaging standard for financial business transactions.

This report contains a significant number of initiatives that have provided their input, but does not claim to be exhaustive.

Being a **collaborative report**, the ISO 20022 RA welcomes any input and feedback about new and existing initiatives.

Any party interested in having their ISO 20022 adoption initiative featured within the ISO 20022 Adoption Initiatives Report, including the ISO 20022 Adoption mApp, is invited to fill in the [input template](#) as described in the « [How to](#) » guide and email it to the iso20022ra@iso20022.org.
