

Maintenance 2014/2015

The new versions of ISO 20022 messages are available

March 19, 2015 

103 new message versions and 26 new messages have been approved at the occasion of the maintenance cycle 2014/2015. These messages have been registered and published and are now available from the following business domain catalogues.

What's new ?

- ✓ 103 new versions of existing ISO 20022 message definitions
- ✓ 26 new message definitions
- ✓ New copy of the [eRepository](#)
- ✓ New version of the [Supplementary Data](#) list
- ✓ New version of the [external code sets](#) spreadsheet

The ISO 20022 catalogue counts now **354 message definitions**

How can I identify the changes applied to the messages maintained ?

The changes implemented to each message set are detailed in the relevant **Maintenance Change Request** (MCR); the MCR documents are downloadable from the 'Log History' Excel sheet provided in the last column of the [Status of Submissions](#) table for the relevant entries identified by « MCR » in the first column of the table ([see screenshot](#)).

Access the [Maintenance Change Requests](#)
